

The 1981 Fritz London Memorial Prize Winners

John D. Reppy (Cornell University, USA)

http://en.wikipedia.org/wiki/John_Reppy

Citation:

“In recognition of his outstanding experimental contributions to our fundamental knowledge in liquid ^3He and ^4He . His elegant techniques of high precision with the superfluid gyroscope and torsional oscillator have led to major discoveries and clarifications of superfluid helium in bulk form, in films and in mixtures, especially at phase transitions.”
