

## The 1993 Fritz London Memorial Prize Winners

Albert Schmid (Karlsruhe Institute of Technology, Germany)

[http://www.tkm.kit.edu/english/albert\\_schmid.php](http://www.tkm.kit.edu/english/albert_schmid.php)

Citation:

“For his many original and seminal contributions to theoretical low temperature physics, in particular his studies of non-equilibrium superconductivity, of the effects of disorder in metals and of the quantum mechanics of dissipative systems.”
